

MACOTRUCK - ZEEBRUGGE - BELGIUM

Founded in 1984, Macotruck offers road transport services to various destinations in Europe. Our three main activities are: haulage of tankcontainers containing chemicals and foodstuffs - specialization in dangerous goods (ADR), boxcontainers (import/export) and the transportation of passenger cars and vans. Our modern fleet consists of 28 Volvo FH-trucks and 24 Volvo FM-trucks with Kässbohrer vehicle transport systems. In a continuously changing business environment, quality and flexibility are our assets. Macotruck's quality and safety management is ISO 9001-certified and SOAS-assessed.

⇒ chemicals:

specialization ADR
non-ADR

⇒ foodstuff

⇒ dry bulk
