Duty/VAT

For most kind of goods you have to pay duties and for some customers in the Netherlands VAT (no art.23/deferment).
When there are high amounts involved we will ask for advance payments.

Taric Code (HS Code)

We don't have the knowledge about all kind of goods, so we like to see Taric-Codes in your order(s) to us. These codes are important in our work and are duty-related.

A screenshot of the Tariff website interface. The top navigation bar includes "HOME", "Nomenclature", "Measures", "Calc of duties", "Quotas", "Reports", and "More info". The "Quotas" menu item is highlighted with a yellow box. Below the navigation bar is a search section titled "Search goods nomenclature". It includes a "Simulation date" field with the value "21-11-2018", a "Trade direction" section with radio buttons for "Import", "Export", and "Export refund", a "Commodity code" input field, and a "General information" section with links to "Informatieblad over gebruik nationale aanvullende code (nac)", "Handleiding Gebruikstarief DTV", "Goederen Nomenclatuur - 2018", "Transponeringstabellen 2017-2018", and "Download DTV". There is also a "Language" dropdown menu set to "English" and an "Expand all search results" checkbox. A green "SEARCH" button is at the bottom of the search section.

United Kingdom

Because we work together with our partner we cover all of UK. It doesn't matter where the clearance will be made, we can do this. As well as for airfreight as for seafreight.

F.e. your customs document will be sent to our agent when your cargo is still sailing and vice versa. In that way our agent(s) can prepare their document. So we can avoid delays and this will save you money.

In UK we work with two agents; one for airfreight and one for seafreight.
